

BUILDING WESTMAN'S FUTURE, ONE PROJECT AT A TIME

We bring your vision to life by building from the ground up, specializing in a wide range of construction projects, including agricultural, commercial, and more.

OUR SERVICES

START A PROJECT

Experience and Innovation

We are committed to meeting the demand for reliable and innovative construction services in the Westman region. Founded by Ken and Jacquie Waldner, our company has grown into a trusted leader in agricultural, commercial, residential and a variety of other construction projects.

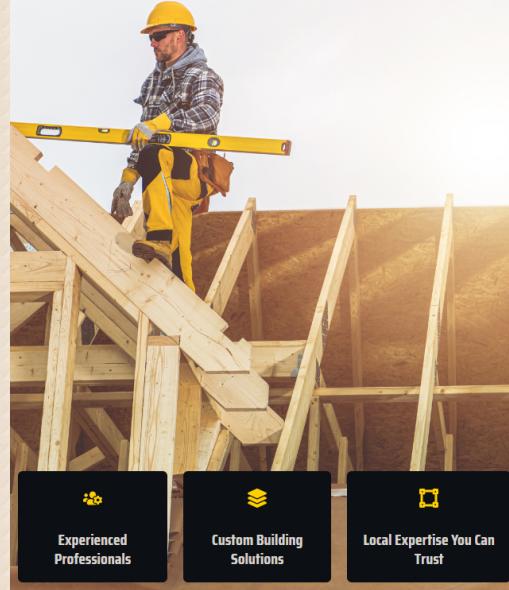

By leveraging innovative technologies and partnering with leaders like Steelway Building Systems, we deliver high-quality, efficient, and durable solutions that go beyond expectations. At K&J Construction, we're not just building structures. We are building relationships grounded in trust and excellence.

Community-Focused

Proudly serving the Westman region, we prioritize building relationships as strong as the structures we create.

Quality-Driven

We take pride in delivering construction solutions that stand the test of time, crafted with precision, built with care, and backed by our commitment to excellence.

WHY CHOOSE US

Experience Construction You Can Trust

We specialize in construction projects that range from agricultural and commercial to more diverse needs, delivering quality solutions across the Westman region. Our mission is simple: to build strong, durable, and functional structures that exceed your expectations.

By partnering with NuCor Building Systems and NuForm Building Technologies, we provide custom-engineered solutions that are efficient, cost-effective, and designed to fit the unique demands of your project.

- ✓ Durable steel construction
- ✓ Custom designs for your needs
- ✓ Trusted local expertise
